

**Thick RED Arrows** Logical Commuting “off road” bike path  
Oranmore TO Galway Center ... through existing Rosshill Par 3 Golf Course

Proposed cycle route in GCDP 2023-2029 AROUND the Roscam Peninsula  
NOW BECOMES a simple WOOD BASED WALKWAY **GREEN ARROWS**.  
An appropriately designed walkway here will preserve the remarkable  
“NATURAL ENVIRONMENT” of this area and provide low cost, low  
maintenance access to the area. A cycleway around the Peninsula will  
require major building works and land movements, causing  
substantial landscape alteration & degradation of the existing  
natural habitats etc as well as be 10-100 fold more expensive to  
build and maintain. Finally, it will undoubtedly be much  
easier/faster to obtain all the necessary  
permissions and environmental approvals for a walkway  
rather than a heavily engineered hard surface cycleway and  
separated pedestrian path.
